

## Transfer Certificate Cancellation (TCC) - Data Dictionary v1.3

Root Element: transferCertificateCancellation

Segment Name: header

Data Element	Obligation	Format	Size	Repetition	Description	Conditions
Segment	Mandatory			1	The header segment contains the type of message, the Health Fund information (both the OLD and NEW Health Fund) and transactional information.	A Transfer Certificate Cancellation request can only be sent where the person(s) has been successfully verified (i.e. successful PVT) and the Final TCD has not been received from the OLD Health Fund.
schemaVersion	Mandatory	N	4	1	The schema version is a two-level number (##.#) that will be used to denote the version of the XML Schema used to validate the XML file, for example 1.0.	
contentType	Mandatory	A	3	1	The type of transaction. <b>TCC</b> = Transfer Certificate Cancellation	
origin	Mandatory	A/N	8	1	The origin location ID (HealthCare Location Identifier) of the Health Fund initiating the transfer certificate request i.e. the NEW Health Fund. The Location ID is a unique code allocated to the client system by the software vendor that identifies the site. For example, ABC12345.	
originFundBrandId	Mandatory	A	3	1	Three character industry Fund code of the NEW Health Fund that is supplied in the original Transfer Certificate Request (TCR).	
fundBrandId	Mandatory	A	3	1	Three character industry Fund code of the PREVIOUS (OLD) Health Fund that is supplied in the original Transfer Certificate Request (TCR).	
transactionId	Mandatory	A/N	24	1	This is the transactionId that is supplied in the original Transfer Certificate Request that needs to be cancelled. This is the reference that must be used by the OLD Health Fund to match the Transfer Certificate Request transaction that needs to be cancelled.	
referenceId	Mandatory	A/N	24	1	The referenceId that is supplied in the original Transfer Certificate Request (TCR) that needs to be cancelled.	
transactionDateTime	Mandatory	Date and Time - offset		1	Date time stamp of the transaction. For example 2016-05-30T09:30:10-06:00
